Pursuing passion for Computer Science in various ways since middle school. Currently enrolled in KAIST university as a Computer Science student. Highly skilled with algorithms, interested in Deep Learning and Computer Vision.
I am a person who always looks for unique solutions and ideas.
I let my intuition and passion lead me in life.

Skills

Design	Interactive prototyping, Arduino IDE, Autodesk Fusion 360, Adobe Illustrator
Programming	c++, python, java MS Access, SQL OS X, Linux
Other	Polish (native), English (fluent), German (intermediate), Korean (elementary) Microsoft Office, Matlab High communication skills, team-working

Education

Date	09.2019 - currently
Institution	Korea Advanced Institute of Science and Technology (KAIST)
Course	BSc in Computer Science and Industrial Design
Date	09.2016 - 04.2019
Institution	XIV LO im. Stanisława Staszica in Warsaw
Course	Mathematical class with experimental curriculum

Experience

Date	07.2020 - currently
Position	Intern undergraduate researcher
Institution	Collaborative Distributed Systems & Networks Lab, KAIST
Tasks	Searching, reading and understanding related research papers Building and executing own research ideas, writing own research paper

Competitions

Participated in half-finals of National Informatics and Mathematics Olympiads
Laureate of Junior Informatics Olympiad
Won first prize at KAIST's Hackathon 2019

Social Activities

Volunteer	At the finals of Potyczki Algorytmiczne Competition 2019 At the finals and semifinals of Junior Mathematical Olympiad 2017 Permanent volunteer at the Museum of the History of Polish Jews (2017-2019)
Tutor	Tutor in Computer Science at ARMY Academy (international volunteer project)
